Aircraft Financing And Leasing In

Aircraft financing and leasing is an industry governed by unique rules and regulations. The mobile nature of aircraft assets creates complicated multijurisdictional issues. Moreover, high equipment value and interchangeable components lead to increased legal, political, and collateral risk.

Aircraft Leasing and Financing | ScienceDirect

Finance leasing, also known as "capital leasing", is a longer-term arrangement in which the operator comes closer to effectively "owning" the aircraft. It involves a more complicated transaction in which a lessor, often a special purpose company (SPC) or partnership, purchases the aircraft through a combination of debt and equity financing, and then leases it to the operator.
