## **Cognitive Science Perspectives On Verb Representation And ...**

Verbs are said to play a central role in the lexicalization of events and states—thus they are crucial for understanding how we represent and use information about these events and states in linguistic utterances. This chapter introduces some key controversies in the study of verb meaning and structure from

Purpose Verb learning is a critical but challenging part of language acquisition. Children with or at increased risk for developmental language disorder may particularly struggle with verb learning, and poor verb representations in turn may negatively impact children's language outcomes. Our goal is to examine literature on children's acquisition of verbs, identifying manipulable factors that ...
