Step 7 Depending on the Excel version on your computer, you can choose, or are shown, which edition will be installed: Click the Next-button to continue. Step 8 (The options in this step are not available in the "non-admin single user setup" of the Business edition) Add ASAP Utilities automatically to the Excel menu for:

ASAP Utilities for Excel - Detailed step by step installation

The VBA application hooks into the interrupts of the Excel application, so Excel runs in a different way. Any code is a sequence of bytes, the CPU gets the first byte, this is the command, recognizes if it has arguments and if so takes the next bytes. Then the process starts over. That means there is nothing that stops the execution.
