Video Art & Experimental Film Festival (VAEFF) - NYC ...

In visual art, Video differs from film (including avant garde cinema) in its disregard for the conventions of traditional movie-making. While film producers juggle with storyline, screenplay, actors and dialogue - the basic elements of entertainment movies - the video artist is concerned with exploring the medium itself, or to use it to challenge the viewer's ideas of space, time and form.

Video Art: Characteristics, Origins, History

With consumer-grade film and video cameras widely available in the mid-1960s women artists began working with these new technologies. Unlike traditional mediums, these—like performance, photography and installation art at the time—allowed women to have a more equal voice.

Film & Video (Major) MICA's Film & Video major gives visual artists the skills to produce, examine, and critique moving images of all kinds. You will study the history of fine artists working in the medium and gain sound technical skills in creating time-based art through projects in the field and in the studio.

Film and Video (Major) | MICA

Although Sleep is a film rather than a video, Warhol's use of the camera, in which he just switched it on and walked away, make it stylistically much closer to art than film since he is clearly looking to bash Hollywood's conventions of narrative and the strategic manipulation of real time through editing.

Video Art Movement Overview | TheArtStory

FVP 327 - Film and Video Art A practical examination of the elemental codes and structures of film and video. Exercises in lighting, sequencing, sound, color, and composition.

Film and Video Production - Department of Visual & Media ...

The School of Film/Video is one of the world's foremost places for the study and practice of the art of the moving image as a personal, evolving and innovative artform. The School supports a full array of moving image/sound approaches with the overall goal of fostering "total film/videomaker artists."

CalArts School of Film/Video

Film, also called movie, motion picture or moving picture, is a visual art-form used to simulate experiences that communicate ideas, stories, perceptions, feelings, beauty, or atmosphere through the use of moving images. These images are generally accompanied by sound, and more rarely, other sensory stimulations. The word "cinema," short for cinematography, is often used to refer to filmmaking ...

Although the Circulating Library has always had a widely varied collection, including early silent films, important documentaries, avant-garde and independent works, animation, and video art, an effort has been made in recent years to strengthen certain areas and to make more titles available to a wider film community.

Circulating Film and Video Library | MoMA

I think a more appropriate title for the book should have been, "The History of Film and Video Art". Mainly because, as the title suggests, I was hoping for lots of examples of art found in films and videos. Instead, there is tons of text. As far as any visual art, what is printed in the book I would hardly consider art, much less inspirational ...

University of California, Berkeley Art Museum and Pacific ...

The differences between film and video used to be a lot greater – specifically in terms of the much greater dynamic range and resolution that film could capture. Over the past few years these have largely gone away and, in many ways, digital may actually be superior to film (though we can leave that battle to the Videomaker forum).
