Hatcher 2.1.16 a) This could be done directly but let's use the exact sequence. First, notice that if X has one component and A is not empty, then a 0-chain generating $H_0(A)$ also generates $H_0(X)$. So $H_0(A) \rightarrow H_0(X)$ is onto and $H_0(X;A)$ is 0 from the long exact sequence. More generally, suppose X has multiple connected components and that
