Jakarta EE performance for applications in any environment. Whether on-premise or in virtual, private, public, and hybrid clouds, JBoss EAP features a modular architecture that starts services only as they are required.

Red Hat JBoss Enterprise Application Platform (JBoss EAP)

Overview JBoss EAP is

Acces PDF Jboss Eap 61

Documentation

an open source platform for highly transactional, web-scale Java applications. JBoss EAP combines the familiar and popular Jakarta EE specifications with the latest technologies, like Eclipse MicroProfile, to modernize your applications from traditional Java EE into the new world of DevOps, cloud, containers, and microservices.
