Theodore Millon - Wikipedia

Personality disorders (PD) are a class of mental disorders characterized by enduring maladaptive patterns of behavior, cognition, and inner experience, exhibited across many contexts and deviating from those accepted by the individual's culture. These patterns develop early, are inflexible, and are associated with significant distress or disability. The definitions may vary somewhat, according ...

Personality disorder - Wikipedia

DSM-5 diagnosis of current moderate or severe substance use disorder for a substance other than alcohol or nicotine; Any history of severe traumatic brain injury (assessed using the OSU TBI-ID modified). If current (past 12 months) mild/moderate TBI and CSI score ≥12 (for either lifetime month or current month), the PI will determine eligibility.
