Quick and dirty cluster installation¶. On a cluster where users are expected to be running across multiple nodes using MPI, make one installation similar to the above, and another using -DGMX_MPI=on and which is building only mdrun, because that is the only component of GROMACS that uses MPI.The latter will install a single simulation engine binary, i.e. mdrun_mpi when the default suffix is used.

Installation guide — GROMACS 2020.3 documentation

Typically, you have to download MSMPI SDK which has set of libraries to compile and linkup MPI applications on Windows and MSMPI executables to launch and run MPI applications. mspmsdk.msi mspmssetup.exe. 2. Install both of them. Just double click and accept license agreement. Installation is pretty simple if you are lucky. Unfortunately, I wasn't.
