### Panther 120 Engine Diagram - mail.trempealeau.net

The Panther Model 120 was a British motorcycle made between 1959 and 1966 by Phelon & Moore. An enlarged Panther Model 100, the 120 had a reputation for being less reliable with a tendency for rapid clutch wear, problematical roller bearings and heavy oil consumption. As competitors produced modern designs, Panther ran into trouble obtaining supplies of Burman gearboxes and Lucas Magdynos, so ...

The engine for the original 30-ton Panther project was the Maybach HL210 P30, while the 45-ton specification for the Tiger received the HL210 P45. The only visible difference was the arrangement of the coolant ducts exiting the cylinder heads, since the Panther and Tiger had different flows through their radiators.

The first Panther was launched in 1924, but the Phelon & Moore name was not dropped until somewhere around 1929. In 1932 the Panther Model 100, an OHV 600 cc single, was launched and this was produced through to the sixties, ending its run as the 645 cc Panther Model 120 of 1967. This line of Panthers was the most famous of all Phelon & Moore models.
