This is the Society's flagship series. The first was published in 1964 as a supplement to the Quarterly Journal of the Geological Society (the precursor to the Journal of the Geological Society), and was retrospectively numbered as a Special Publication. The series gained its current clear identity in 1981.

**CGS Publications - California**

Overview. Published since 1973, Geology features rapid publication of about 23 refereed short (four-page) papers each month. Articles cover all earth-science disciplines and include new investigations and provocative topics. Professional geologists and university-level students in the earth sciences use this widely read journal to keep up with scientific research trends.
