Series 57 Exam Prep: The Best Study Guide and Test Questions

We discuss the purpose of, types of questions addressed by, and different types of studies associated with four research designs commonly used in special education—descriptive, relational, experimental, and qualitative designs, as well as briefly review an example study using each research design.

Research Designs and Special Education Research: Different ...

In practice the surface of the brain is highly folded and can change the orientation of the pyramidal cells to the electric field. An additional consideration is that tDCS can affect the excitability of synaptic inputs onto the pyramidal neurons, again with the proviso that the electric field is oriented parallel to the presynaptic inputs.
